May 30th – August 5th, 2023

What is REU: OCEANUS?
REU: OCEANUS is an interdisciplinary research program that advances scientific understandings of coastal system sustainability. Funded by the National Science Foundation (Award No. 1950910), REU: OCEANUS invites talented students from diverse backgrounds to participate in a 10-week immersive online research experience.

Student Benefits:
- Enhance scientific research and communication skills through high-impact learning and hands-on training
- Build social capital through the Aggie Network
- Gain tools to navigate the academic pipeline
- $6,000 stipend, room and board, campus meal plan, and travel allowance
