May 31st – August 6th, 2021

What is OCEANUS?

OCEANUS is an interdisciplinary research program that advances scientific understandings of coastal system sustainability. Funded by the National Science Foundation (Award#1950910), OCEANUS invites talented students from diverse backgrounds to participate in a 10-week immersive online research experience.

Student Benefits:

- Enhance scientific research and communication skills through high-impact learning and hands-on training
- Build social capital through the Aggie Network ([http://www.aggienetwork.com](http://www.aggienetwork.com))
- Gain tools to navigate the academic pipeline
- $6,000 summer stipend

Applications due: February 15, 2021
